CFORCE

CFORCE 450 / 450 L

CFMOTO answers the call of customers looking for a rugged, maneuverable and affordable midsize machine with the CFORCE 450. Built tough to handle the demands of your day, its quality starts with a high-strength steel-frame backbone, matched to a proven single-cylinder liquid-cooled SOHC engine and smooth CVT transmission. The robust output of the 400cc engine, plush suspension travel, four hydraulic disc brakes, 24-inch AT tires, comfortable ergonomics and 1350-lb towing capability puts the CFORCE 450 on par with bigger brands in all aspects. Whether you're moving equipment on your property or tending to the livestock, the CFORCE 450 has the advanced features, accessories and all-day comfort to get the job done.

CFORCE 520 / 520 L

With a tighter turning radius, a stronger frame, even more suspension travel and comfort, and increased loading capacity, the CFORCE 520 will take on your toughest tasks, and still be ready for fun when the work is done. The 495cc engine of the CFORCE 520 adds more power and more possibilities to CFMOTO's venerable ATV platform. Fortified with EPS, bigger torque and premium accessories such as RIDEVISION® LED lights, aluminum alloy wheels, and 25-inch AT tires bring its rugged capability to a new level. Handguards, and interchangeable luggage racks with the CFCONNECT quick-release system add comfort and convenience. Standard features like a remote-control 2500-lb winch and an array of available accessories make the CFORCE 520 an ideal machine to outfit for your adventure.

CFORCE 625/625 TOURING

With a focus on upgrading power, CFMOTO offers a revised 580cc liquid-cooled 4-valve single-cylinder engine in the CFORCE 625. Power delivery remains smooth, predictable and strong, now with an all-around higher output across the power band. An all-new ECU and electronic throttle ensure the torque is maximized throughout the rpm range, and also makes it possible to equip the CFORCE 625 with Dual Power Modes, to suit the needs of your work throughout the day. EPS, full hydraulic disc brakes, double A-arm suspension continues to provide a comfortable ride and agile performance. The camo version is specially equipped with dark alloy rims, ideal for hunting activities. The CFORCE 625 comes in both single rider and two-up versions.

CFORCE 850 TOURING

More power, more advanced technology and capability, unbeatable functionality, with an undiluted dose of off-road excitement. The CFORCE 850 TOURING is the top-class ATV that tackles every terrain and challenges with an attitude that manifests as "unstoppable" and leaves the competition in the dust. This model offers superior performance with a powerful 75-horsepower engine, EFI-calibrated burst sensors, and a distinctive hexagon grille with high-intensity LED headlights. It features 285mm of ground clearance and 14-inch alloy wheels for safety on challenging terrains. This model also includes front double A-arm and rear trailing-arm suspension, ensures a smooth ride with adjustable shocks for comfort, suitable for various loads and passenger accommodations.

CFORCE

CFORCE 1000 TOURING

The new CFORCE 1000 TOURING provides more than just ultimate performance; it's a superior balance between power, precision, and comfort. It's not just raw force; it's about using it with confidence. With improved performance across the board, the engine's power has been increased to 90 horsepower. The design of the sides with the large 14-inch alloy wheels ensure that you are safe and easy to recognize when the terrain becomes uncertain. The double A-arm suspension and rear trailing-arm suspension deliver performance while maintaining a smooth ride even on tough terrain. With fully adjustable shocks, you can customize the suspension to suit your needs, whether it's lighter loads or accommodating a passenger.

UTV

U10 PRO / U10 PRO HIGHLAND

All-new U10 PRO redefining what a top full-size UTV can be and launching a new era for the UFORCE family. The U10 PRO offers impressive all-around elevated performance for both work and play. The U10 PRO is powered by a new CFMOTO 998cc triple-cylinder natural-aspirated engine. Producing 90 horsepower and 94.5Nm of peak torque, the new engine is paired with CFMOTO CVT transmission with all-wheel drive, hill descent control, power modes, and the exclusive Variable-Valve-Timing (VVT) system to boost torque at low rpm and also ensure continuity of engine performance. The Off-road capability reaches a new height for the UFORCE nameplate as well, enabling customers to go further with confidence. It also features an all-new in-cab system with technology integration and premium interior features in its class, including electric driving controls, a 8-inch MMI touchscreen dash, and an adjustable steering wheel and driver seat.

UFORCE 600

Bursting with standard features such as progressive EPS, the UFORCE 600 is more powerful, more agile and even more work ready than its predecessor. Take on the outdoors with confidence, and power through your workday quicker with lightweight handling, 4x4 capability and a gas-assisted cargo box. In addition to the outstanding base spec, the UFORCE 600 is also highly customizable thanks to the huge CFMOTO accessories catalogue. The UFORCE 600 puts power, capability and versatility in your hands, whether it is geared toward work, fun, or the balance in between.

SSV ZFORCE

ZFORCE 800 TRAIL

The new ZFORCE 800 TRAIL offers an agile side-by-side without trading off a dynamic driving experience. The liquid-cooled, fuel-injected, four-stroke V-twin 800cc engine is married to a CVT transmission and has two power modes for smooth trail riding. Many updates include new exterior design, new LED front light, more robust half doors, a new side air intake with frog-skin filter, restyled 14-inch alloy wheels. Inside the cabin, there's a new 5-inch LCD gauge, flat-bottomed steering wheel, waterproof storage compartments, improved sports seats and smartphone connectivity.

Nebula Black

ZFORCE 950 TRAIL

The ZFORCE 950 TRAIL is an agile side-by-side that doesn't sacrifice a thrilling driving experience. Its width is 50 inches as this is the TRAIL version. This means that you'll be able to easily navigate twisting trails. Its 963cc V-twin engine with fuel injection and CVT transmission delivers excellent smooth driving. Horsepower comparable to the SPORT model. It also has half doors, 14" alloy rims, a 5" LCD gauge, cargo box, and comfortable sport-style seats and flat-bottom steering wheels.

ZFORCE 950 SPORT

Let your senses soar to new heights. The ZFORCE 950 SPORT is for the enthusiasts who are with their friends for good recreational time or into an expedition. It retains the 963cc liquid-cooled V-twin four-stroke engine of its predecessor, featuring EFI, and electric throttle and CVT transmission, tuned to deliver even more muscle for your adventure. Rear cargo box with cover increases to 158L of storage, capable of hauling 150 kg. From the weekenders seeking a remote getaway to the bold who welcome a challenge, the connection is found from the seat of this new model.

ZFORCE 950 SPORT

Length x Width x Height	3065x1524x1870 mm
Wheelbase	2286 mm
Minimum Ground Clearance	305 mm
Minimum Turning Diameter	without rear diff:10500mm with rear diff:10200mm
Curb Weight	675 kg
Payload Capacity	315 kg
Fuel Capacity	37 liter

Engine	
Engine Type	V-twin cylinder, liquid-cooled, 4-stroke, SOHC, 8-Valve
Displacement	963 cc
Fuel Supply	EFI
Transmission	CVT

Chassis	
Drive	Switchable 2WD/4WD/4WD Lock
Brake	Four wheel hydraulic disc + rear wheel side parking
Suspension	F: Double A-arm independent F: Double A-arm independent with 'toe-link control'
Suspension Travel	F: 307mm R: 334mm
Shock Absorber	Piggyback gas shock with adjustable compression and rebound damping
Wheels	14-inch alloy
Tires	Front: 27x9.00 R14 Rear: 27x11.00 R14
Color	Magma Red, Nebula Black, Twilight Blue

ZFORCE 950 SPORT-4

Length x Width x Height	3827x1524x1880 mm
Wheelbase	3048 mm
Minimum Ground Clearance	305 mm
